## EDUCATION

### Vishwakarma Institute Of Information Technology

Pune, MH

B.Tech in Information Technology - CGPA: 8.81

Aug. 2018 - June 2022

### Mudhoji High School and Junior College

Phaltan, MH

Higher Secondary Certificate (HSC) - 83.08%

Aug. 2016 - May 2018

## EXPERIENCE

### Software Engineer - Cognizant Technology Solutions

June 2023 - Present

**Skills:** Java, Spring Boot, Microservices, MSSQL, GitHub Actions, CI/CD

- Assisted in the **Sybase to MS SQL Server** database migration, boosting performance by **45%** through query optimization and stored procedure refactoring.
- Led the CI/CD pipeline migration from **Bamboo to GitHub Actions (GHA)** across 130+ artifacts, reducing deployment overhead and supporting team-wide pipeline development.
- Engineered client-facing features and delivered **L3 Production Support** for the SMART application, resolving critical incidents to ensure maximum system availability and reliability.

### Front-End Web Developer - StrideBiz Consulting

July 2021 - Dec 2021

**Skills:** HTML5, CSS3, Bootstrap, Angular, Node.js, JavaScript, GitLab, GitHub

- Engineered responsive web interfaces using **Angular, HTML5, CSS3**, and **Bootstrap**, improving cross-device layout consistency for client applications.
- Integrated frontend interfaces with **Node.js** backends and RESTful services, delivering modular and reusable UI components.
- Collaborated with senior developers on end-to-end application testing, bug fixes, and version control using **GitLab** and **GitHub**.

## PROJECTS

### Spring Ecom - 🐙 | Java, Spring Boot, React, MySQL, REST APIs

Jun 2024 - Present

- Architected a scalable full-stack web application utilizing **Spring Boot Microservices** and REST APIs paired with a modern **React** frontend.
- Implemented application security with **Role-Based Access Control (RBAC)** and **OAuth 2.0** authentication; currently integrating the **Razorpay Payment Gateway** for secure, seamless online payments.

### Info Pilot - 🐙 | Java, Spring Boot, React, Gemini AI, H2, REST APIs

Jan 2026 - Present

- Built an enterprise-grade AI knowledge assistant leveraging **Spring Boot, REST APIs, React**, and **Gemini AI** for automated PDF ingestion and document querying.
- Developed scalable REST APIs and implemented vector similarity logic using an in-memory **H2** database to enable semantic search capabilities.

### Portfolio Project - 🌐 | React, JavaScript, HTML5, Bootstrap, GitHub Actions

Jun 2025 - Present

- Designed and developed an interactive, responsive portfolio website featuring custom dark-mode styling built with **React** and **Bootstrap**.
- Automated deployment workflows using **GitHub Actions** for continuous integration directly to **GitHub Pages**.

**Additional Projects:** 🐙 Alumni Management System (Java, Spring Boot) | 🐙 MEAN CRUD Application (MongoDB, Express, Angular, Node.js)

## COURSES AND CERTIFICATIONS

**Microsoft:** AZ-900 Microsoft Certified Azure Fundamentals | **Udemy:** SQL for Beginners

## TECHNICAL SKILLS

**Languages:** Java, C/C++, SQL (MSSQL, MySQL), JavaScript, HTML5/CSS3

**Frameworks & Libraries:** Spring Boot, Microservices, REST APIs, React, Node.js, Angular, Bootstrap

**Developer Tools & DevOps:** Git, GitHub, GitLab, GitHub Actions, VS Code, IntelliJ IDEA, Postman, DbVisualizer, SSMS

## ADDITIONAL INFORMATION

**Spoken Languages:** English, Hindi, Marathi | **Interests:** Traveling, Badminton, Drawing, Cricket
